September 2016**

All in for Kids!

Welcome to the 2016-17 school year!

Your investment in quality education is evident this fall in classrooms across the district. This year you helped the foundation award over **\$200,000 in grants** to our schools to support academic excellence for ALL students. Thank you for making a difference.

This fall we are offering an IXL online math license to all elementary schools. We're also investing in professional development for teachers, in middle school and high school robotics programs, as well as providing LINKS mentoring and supporting the AVID college readiness program. With your help, we've made a difference, but there's so much more to be done. In the coming months, we will be adding a few new opportunities for people to get involved with the foundation. We hope you'll take the time to learn a little more about our work and get involved. Please visit www.lwsf.org for more information.

This month we're kicking off our fall campaign to raise \$80,000 that will directly support students. Keep an eye out for the sign at your school or a letter in your mailbox. Together, we can expand quality programs throughout the district so every student succeeds, from kindergarten to their senior year, from Juanita to Sammamish. Thank you!
